EXPERIENCE

Urgent IT Solution

Jan. 2025 – Present

Full Stack Developer

Intern

- Developed a full stack website **Sri Vedic Puja** using React, Tailwind CSS, Node.js, Express.js, and SQL.
- Implemented REST APIs for handling user requests, authentication, and database operations.
- Integrated **real-time chatbot** using Socket.io to enable instant communication with users.
- Built responsive UI components using React and Tailwind to improve user experience across devices.
- Managed backend services and database queries to ensure efficient data storage and retrieval.

PROJECTS

HabitPro | *React.js, Node.js, Express.js, MongoDB, Tailwind CSS* | [Live Demo](#)

- Built a full-stack habit tracking app with **JWT authentication**, daily habit grid, and GitHub-style activity heatmap.
- Designed RESTful APIs with Node.js & Express for habits and completions with MongoDB Atlas as cloud database.
- Implemented analytics dashboard with **streak tracking**, monthly bar charts, and per-habit performance insights.
- Deployed frontend on **Vercel** and backend on **Render** with separate repos and environment-based configuration.

Website Replica Project

- Developed a replica of a modern website to improve UI/UX development skills.
- Focused on responsive design, layout structuring, and improving frontend interface using HTML, CSS, and JavaScript.

Mini Games Collection (Snake Game & Tic-Tac-Toe)

- Developed interactive browser-based games including Snake Game and Tic-Tac-Toe.
- Implemented game logic such as snake movement, food generation, collision detection, and score tracking.
- Built Tic-Tac-Toe with win/draw detection and player turn management using React **useState**.
- Added reset and replay functionality with responsive UI for smooth gameplay experience.
